Review

Those interested in social psychology or personality will also find the book useful, perhaps not so much for the particular topics covered as for an introduction to the fascinating question of why anomalistic phenomena and magical explanations are so ubiquitous in human societies.

—Contemporary Psychology

As before, the great strength of *Anomalistic Psychology* is its range of coverage both of types of anomalous phenomena and of psychological concepts that might account for them....The book is generally excellent as a sourcebook of references...plenty of fascinating and informative material.

—The Journal of the American Society for Psychical Research

The book is recommended for both libraries...and...Upper-division undergraduates and up.

ANOMALISTIC PSYCHOLOGY: A STUDY OF MAGICAL THINKING BY LEONARD ZUSNE, WARREN H. JONES PDF

Updating and expanding the materials from the first edition, *Anomalistic Psychology, Second Edition* integrates and systematically treats phenomena of human consciousness and behaviors that appear to violate the laws of nature. The authors present and detail a new explanatory concept they developed that provides a naturalistic interpretation for these phenomena -- *Magical Thinking*. For undergraduate and graduate students and professionals in cognitive psychology, research methods, thinking, and parapsychology.

One Star

By Dr. Dean

Just opinions with no actual research or supportive literature. Everyone's got opinions, I suppose.

2 of 7 people found the following review helpful.

Not a review but a complaint

By arturo escobedo

Don't buy this book until the price is at 50.00 dollars. That's what it's worth. Any higher price and it's gouging and taking advantage of you.
