"I have the feeling that this book is going to change many lives. The way that you tell your story comes from a standpoint of complete humility, yet with a lot of confidence that people are looking for that will give them permission to finally break through the barriers they have been faced with their entire lives.

Gregory provides a very concrete action plan that people can get results from immediately and the invitation

for people to turn to you seems very open. I sense that Gregory is a true servant and his words and his book are sincere. He has been called to help people awaken to the Miracles that can happen in their own lives. That calling comes through very clearly, but not in a way that is overbearing. It's almost like a soft invitation that The Savior would give to people around him to come and partake of his goodness.

It's obvious that this book has been waiting to come out of Gregory for many many years. Now is the time."

From the Author

The night my father stopped his truck on the side of Highway 1 in Bodega Bay, then in a drunken drug fueled rage, put his gun to the side of my head and threatened to blow my brains out, was not the first time I feared he might actually kill me. But it was the first time that I truly accepted that maybe no one really did care about me. That no one would stop to give me a ride and that no one could see that I was hurting, made his words true; every last one of them. "No one gives a sh*t about you." "You're a f**king worthless piece of sh*t." "You don't live here - you're just visiting." "I'll take you out back and shoot you and bury you." "You'll never amount to anything."

I walked nearly 25 miles that night from Bodega Bay to Santa Rosa on my way to El Verano. All of the walking, silence, loneliness, and the hurting drove the emotional nails even deeper into my coffin of limiting beliefs. At the time I was just 15 years old. In reality, I should have been dead that night, but by nothing short of a miracle, before age 35, I would become a Top member of the Jack Canfield Success Principles Team and eventually go on to be a leader in the Personal Development Coaching industry changing thousands of lives world-wide by teaching the key steps to attracting miracles.

By AdamBomb

There are few things that move me more than the story of human triumph over the adversities of life. Gregory Downey's book "Attracting Miracles" is one such amazing story. Well written with his quick wit and ever optimistic outlook, Downey tells his personal story of conquering the demons of his past from living with an abusive father and from his own personal struggle with drugs and alcohol. Somewhere down the road the light bulb went on for Gregory that he was a product of the very principles he was utilizing in his daily work to help people overcome their own demons through the Miracles Coaching program. In retrospect, he realized that at certain key points in his life, without even knowing it, these principles - or something very close to them - were implemented making lasting change in his own life. When he sat down and made a conscious effort to connect the dots, it was obvious to him that he was a product of the principles of truth that the Miracles Coaching program espouses. He himself had attracted miracles. He himself was a miracle. He had in a way coached himself out of his past. But it wasn't until he was a coach himself with years of training under his belt that he had this stark realization. So he had to write a book about it and share it with the world.

I for one plan to take his advice and write down my 10-15 wants and don't wants and get to work on clearing the clutter of self doubt out of my life. I plan to achieve some specific goals by freeing myself from the chains that my own limiting beliefs have prevented me from realizing. For most people, self improvement is an ongoing and ever challenging facet of life. For many they simply find it too difficult and give up, never realizing their true potential. The greatest athletes have personal coaches. The greatest leaders in the world have coaches (usually called mentors). It makes perfect sense that for a human to achieve greatness, that a personal coach might be just what is missing. In Downey's book, he gives you the tools to make a start. I'm looking forward to my own journey and plan on attracting some very specific miracles in my own life.
