It's not as outdated as you think

By Kim Snyder| Overall Beauty Minerals

This book has some really great ideas for anyone who has a special

problem that needs help. Such as helping with a high forehead.

It was the only book I found that teaches how to properly contour your face.

Sure some of the pictures look

little out-dated but the basic tips are very helpful.

If you put a modern day hair cut of the girls in the pictures you

will find that the makeup tips are good. Most beauty books

are

out-dated by their hair styles not the information in them.

The beauty tips are sound and useable and easy to follow.

The book teaches you basic ways to clean your face, how to use a face mask, how to take off your eye makeup. All tips are great for anyone who doesn't wear makeup and wants to learn.

Just look beyond their hair and you will find beauty tips that can be used everyday and to go glam at night.

kaleidoscopic !

By kooky Kid

Not-so-quaint Mary Quant's definition of

"Classic" is not the "natural look" ... A far-out pioneer in swinging sixties style showcases zany fresh bright color palettes, with practical how to's. Lots of color photography- Chapters include: a gallery of looks , u'standing your skin, the makeup palette, skin-care regimens, step-by-step make-up lessons and finally body care programs. Tons of fun !
