Just read The Charmer and skip this book

By A. A.

Orphaned Wiley had a hard life, unceremoniously abandoned as a child and having to cope that she transforms into an ugly hairy unknown creature when she feels very intense emotions. Well, her life was about to become harder when she stumbles across others of her own kind, one of which is a hot prince who happens to be her betrothed!

The book starts off well enough and I quite like the author's writing style. The plot in this book is similar to The Charmer, except told from the perspective of Wiley. If so, it would have been expected that there would have been more plot, or additional twist and turns to give life to this novel. Unfortunately, this was not to be, you occasionally had word for word replication of certain scenes in The Charmer. The major flaw in this book was that it turned out to be a uncompleted short novel and ended with a "Read The Charmer to find out how it all ends!"

WHAT?!?!?!?!?

You have got to be kidding me! Short story + overlap in plot + no conclusive ending?!?!?!?! Especially when this novel is \$2.99, which is more expensive than the other books in the Darkland series!! If this was made clear in the product description (that it's a prologue or short prequel to The Charmer), I would not feel so disgruntled. Save your money and read The Charmer (a really good novel) which has a much stronger plot and is cheaper to boot!

decent

By Shayliz

It's a decent book but you don't really learn anything different from the first. Which I loved(The Charmer). This is Wiley pov but like I said theres only a few added scenes that were not in the first. It was almost like reading a cut version of Charmer. Its very short. In my opinion. \$2.99 is too much for this short story of nothing new. It should have been free or no more then .99 cents.

Second Novel of the Dark Lands Series

By J. Kaye Oldner

Wiley James never fit in normal society. Underneath her human exterior awaited a monster. The only place she felt comfortable was in the Alaskan wilderness. The trip she took this particular time was no different, at least until three scary hunters appeared out of nowhere and kidnapped her. They took her to their world, the Dark Lands, claiming she was born there. Worse, one of her kidnappers claimed her betrothed.

This second installment provides the background information from "The Charmer" that concerns Wiley and Jayems. This isn't a full book and at the top of the first page, there's an author's note warning readers "The Charmer" isn't meant to stand alone, but neither is this book. It's a companion to the first. Readers should also be warned, this story contains lots of summary as to not repeat information.

Personally, I'm thrilled the author separated the two couples, Keilor/Jasmine and Jayems/Wiley, but I feel their story could have been presented better than this. At the current price of \$2.99, I'm afraid fans won't feel it's worth the price. Still, I love this series and don't regret getting this book.

On a last note, this series should be read in order. Here are the titles:

1. Dark lands: The Charmer (formerly Teasing Danger)
2. Dark Lands: Coming Home (formerly Homecoming)
3. Dark Lands: Scent of Danger (formerly Something Wild)
4. Dark Lands: The Golden Bell (formerly Fallon)
5. Dark Lands: Beast Wars (formerly Bad Moon Rising)
6. Dark Lands: Ghost in Her Heart

I've read the first three and plan on reading the remaining three too.
