**My Interest Has Definitely Been Piqued!!!**

By ROSALIN DELGADO

When I first purchased this book, I was quite unsure as to what to expect, but I can honestly say that I was most pleasantly surprised. This book truly provided some wonderful insights into how and why the personality of inventors sets them apart from others. Geoffreys' made what otherwise could have been a tedious subject, entertaining and engaging by providing examples throughout the book of different ENTP figures who were easily recognizable. I found this to be quite useful as it allowed me to see how the different strengths and weaknesses revealed themselves in real people who are ENTPs as opposed to looking at it from an abstract point of view. I particularly enjoyed his list of influential ENTPs and found myself looking at these individuals from a new perspective that I otherwise may never have come to on my own. Another touch that I greatly appreciated was Geoffreys' inclusion and much appreciated introduction to MTBI Personality Types. I say it was much appreciated because it provided me with some insight to my own

personality and has piqued my interest into learning more about the different types of MTBI personalities. I will definitely be picking up his other books!

Helped a lot!

By L. Hill

When the ENTP personality type came up in my psychology class, I gave a little eye roll. Let alone having to research the topic and turn it in for a grade. This book made it interesting to learn.
