Average text for low-level students

By Harlan D. Whatley

I teach at a small college in China, so this is a good text for the level of my students. The exercises are good but you are forced to purchase the Class CD for an additional \$60, making this a very expensive textbook.

0 of 0 people found the following review helpful.

nice

By Seung Hyeon

There was just a little bit writing at the front of the book.

For me, nothing was problem. Thank you.

One Star

By savas bozkurt

This is horrible confusing book, I don't recommend anyone to get this book to prep ielts.
