Riveting

By A Customer

I found this book in the library years ago. I have always been interested in accounts of supposedly 'true' hauntings and this book turned out to be my absolute favourite to date. I have since read it 3 times.

It really is compelling. I'm sure there are many people who feel they are true aficionados of hauntings so I challenge you to read it and place your opinion on it here.

This is the only book I have read that actually bothered me and I couldn't put it down.

Whether Ray Garton has embellished on the happenings I don't know. I know a film was made, changing the name of the Snedekers but it was apparent it was the same family. The film is totally wishy washy compared to the book though. A lot is left out and in my opinion you don't get the same feeling that you get from the book. I loved it. It still scares me to this day and I have been searching ever since for more stories like this, which is shameful of me because it means someone else will have been through what the Snedekers went through. I have to say it grabs you from the start. It's such compelling reading. I recommend it. I don't usually scare easily when reading, but this one did it.

Frightening piece of literature - true or not

By calvinme

I found a copy of this book a couple of years ago after watching the documentary version of it, "A Haunting In Connecticut" on the Discovery Channel. The TV show was one of the scariest I'd seen, and the book tracks the film pretty closely.

The premise of the book is that the Snedeker family needs to move closer to where the oldest son, Stephen, is being treated for cancer. The family thinks they have found the answer to their prayers when they find a large home that has just been remodeled that is being leased for a very reasonable price. However, they soon learn the reason for the bargain. The house is a former funeral home. However, with the expense of the son's cancer treatment weighing heavily on the family budget, the Snedekers are unable to afford breaking their lease and moving to yet another house. According to the book, demons invade their domicile - or they invade the demon's domicile, depending on how you look at it - until the supernatural detectives, the Warrens, are called in and with the help of an exorcism, restore peace to the household.

Just as much as fright, though, I felt a great deal of anger at the Snedekers as parents. For one thing, Mr. Snedeker seems to believe that the size of his electricity bill is more important than the mental health of a child recovering from cancer since he removes all of the light bulbs from the basement bedroom so that Stephen can no longer sleep with the lights on. Then he forces the boy to continue sleeping in this bedroom in spite of his tales of horror of being tormented by apparitions coming from the former embalming room adjacent to his basement bedroom. He does this in spite of the fact that he and his wife have both personally been the victims of attacks and witnesses of various manifestations of the house's spirits. Afterwards, in despair, the boy just gives in to the demons' collective will, manifesting in more and more bizarre behavior until he finally attacks a visiting cousin. How Mrs. Snedeker could have invited this young niece into her home in the first place just because she wanted the companionship and help around the house, having witnessed firsthand the mayhem that the house's demons can cause, as well as her son's deteriorating mental state, is a wonder to me.

I have read an interview with the author, and he paints both the Warrens and the Snedekers in a very unflattering light in that interview. He basically says that he does not really believe the Snedekers' stories, since even the Warrens themselves told the author that they think that all of their clients are crazy including the Snedekers. Plus, apparently there was considerable drug and alcohol abuse going on in the Snedeker

household and the family members would never tell the same story twice. The author only went through with writing the book because he was already legally obligated to do so. However, even if the account is total fiction, it is well told and frightening fiction and I highly recommend it if you can find a copy. If not, the next time the documentary comes on TV, you should watch it. Also, there have been rumors this story is going to be made into a feature film to be released some time in 2006, but I haven't been able to find any other details on this alleged movie.

Truly riveting story of a house possessed by demons....

By Jennifer T. Rose

In this book, derived from the experiences of Ed and Lorraine Warren (who are well respected, self-proclaimed Demonologists), with regard to the Snedeker family, the reader is brought into the realm of the unknown and seemingly impossible, world of demonic possession. Through this compelling saga, one is transported into the horrific lore of the Snedeker's reality. A family of seven persecuted maliciously by a group of apparitions that catapult the family into an incubus of apocalyptic proportions. The demons manage to invade the very core of the Snedeker's family, trying desperately to destroy their familial bonds. The devilements of these omnipotent, devilish demons increases more and more as they gain control over the Snedeker family. Not one member of the family is left untouched by these oppressive entities. This book leaves the reader in awe of the potential danger of the unknown realm of spiritualism and demonic possession. Whether you "believe" or not, it is a truly compelling story worth putting some effort into reading.
