Top Life-Changing Book

By Siwash

I'm 50 and began making a list of the Top Ten Books Most Influential in My Life.

This made this list!

It's just enormously crammed with good social advice, good practical tips and advice, and without question there is a deeper ethos that one picks up while reading through these various items. . . the notion that

personal happiness comes through cheerful service to others, that helping others is vital in life, and that moderating our unruly desires is actually a far more positive thing than just letting yourself go.

There's even useful business leadership advice here, along with romantic advice. It's just all good.

H. Jackson Brown has sold tons of copies of this, and actually performed a really good thing for society in writing this.

I'm pleased to see the new edition; I've been ordering and reordering this for years to give as gifts, and keep a copy in the car.

This should be mandatory reading for every kid who graduates from high school. I give it as a graduation gift.

Great book

By adubz44

This is a great book just to have. While you won't agree with everything in the book, it's nice to read maybe once a year or every so often. Puts the little things into perspective. Whenever I see someone posting sayings like these on social media, it usually makes my skin crawl. You didn't come up with this saying, don't post it. However, when you actually read them straight out of a book, they carry more meaning.
