Fast, Easy, Delicious, Practical .. Did I Mention Cheap?

By Cassandra_was_right

I've used this book for a couple of years, and it has never failed me. It's the first and best idea-generator when I find myself faced with a hungry-right-now feeling/family, and a kitchen with not much in it. Got only three aging zucchini and a potato? This book guarantees that you'll make something wonderful of it. One egg and a wilted broccoli stem? No problem. Guests coming in half an hour? Got it covered. Not only will they eat, but they'll eat well and be mighty impressed besides. The only investment required, besides the very modest price of the book itself, is a half-dozen basic spices - especially since most of the recipes don't require (or miss) meat. Cheap, fast, creative, delicious, healthy.... I could go on even further but will only add that this book is the one and only thing I actually missed when I left it behind in the process of leaving my husband! And I'm buying another copy today.

By Amazon Customer

Quite a good book. I'm from the Indian subcontinent and I'm already an avid cook. I haven't made any recipes from the book (yet), but it has given me a few ideas to give some of my existing dishes a different edge. I do think that it is for an advanced cook rather than for beginners and even I find some of the ingredients list a bit daunting. However, I bought my book pre-owned for only \$4.01 which was a great bargain.
