So Awesome!

By Jordan Matthews

Ordered this for my upcoming semester in College. It's a rental, so I was expecting a lower quality book, but it is so nice! No crumpled pages are torn pages! I love that you don't have to spend so much for a book you may only use for a semester! Thank you for helping a struggling College student! Haha!

Fellow college student, buy this, ditch the textbook, and thank me later for a better reading experience (no more brick in bag)

By Fabs

At first, I was skeptical about buying an ebook instead of a physical textbook, but owning this ebook kind of made my transition much easier. This a great replacement for a thick, "back killer", in your bag. I would totally recommend this to my fellow college students!!!

The top review says it all, the information in ...

By Jillian Cecil

The top review says it all, the information in this book is completely broad, I had to google a lot of the information I needed for tests and whatnot in my class, due to the fact that there was absolutely zero mention or explanation of it in the book
