## Review

"Books I read over and over and over...." (USA Best Selling Author M.K. Eidem)

This highly entertaining science fiction/paranormal romance combines humor, imagination and contemporary situations in a wonderful mélange. The contrast between highly advanced beings who have wondrous inventions, remarkable shifting abilities, and incredible alliances with various types of entities and down-to-earth, resourceful, and pragmatic human females is deftly portrayed in an engaging story. I love the imagery evoked and the patent disbelief of these self-assured, extremely capable alpha males when faced with the St. Claire women (and Ruby). It was not a problem reading this story as a stand-alone, but I have to admit that I am highly curious about the story that came before, and there are threads laid down in this tale that I would love to see explored. This is the first story that I have read by this author, but I will definitely be looking for others as this was such a fun and imaginative story that captured my attention and kept me laughing throughout the entire narrative.

"Viper's Defiant Mate" by S.E. Smith is part of the 'Sarafin Warriors' series and follows Prince Viper d'Roja, a cat shifter, who has been assigned to retrieve his brother's mate's human family. His blithe disregard of her warnings about the risk of dealing with her sister Tina St. Claire and grandmother Pearl result in more difficulties than he anticipated, especially when his cat lays claim to Riley. Dangers other than those found on Earth also threaten Viper's family, but first he has to survive his encounters with tasers, drug-filled darts and a shotgun full of unconventional ammunition?but at least Ruby the chicken finds him fascinating!

# VIPER'S DEFIANT MATE: SARAFIN WARRIORS BY S. E. SMITH PDF

New York Times and USA TODAY Bestselling author of Science Fiction, Urban Fantasy, and Paranormal Romance brings another action, adventure, and suspense-filled story to transport readers out of this world.

Prince Viper d'Rojah, a warrior from the Sarafin cat shifter species, is not happy when he is sent on a special mission by his older brother Vox, King of the Sarafin. The mission is to deliver important documents to the human authorities before kidnapping the sister and grandmother of Vox's mate, Riley. He has handled tougher assignments in his sleep and just wants to get back to finding the traitors trying to kill him and his family!

Tina St. Claire was finally happy with her life until her big sister, Riley, suddenly disappeared. Even Grandma Pearl suspected that Riley's ex-employer was hiding something. Determined to find Riley, Tina's research unwittingly leads the danger to her and Grandma Pearl. The unexpected arrival of a strange man causes things to go from bad to worse when he gives her and Grandma Pearl a packet of material he claims is from Riley.

Riley had warned Viper that neither her sister nor Grandma Pearl would willingly come with him. Viper couldn't care less whether the females wanted to come or not; he had never failed a mission and wasn't about to start now.

Viper soon discovers this mission has turned into the most important one of his life when both he and his cat recognize that Tina is their mate. Now, he has to keep Tina and her gun-toting Grandmother alive. The question is, who is going to save him when both women discover his plans to kidnap them?

Editor on holiday?

By Kindle Customer

Con: holy cow, there are a lot of really elementary mistakes here. After quotes, words like she replied, etc, she would not be capitalized. This was really annoying, and a very amateur mistake. Then, we have missing words, wrong tense, there, their and they're mistaken... se smith is hitting all of my worst pet peeves. These mistakes are so unprofessional and completely avoidable.

The cons past grammar...Our heroines have crossed the line to abusive. Viper, in the beginning, absolutely deserved the rock salt, even the poisoning is relatively mild, but it just continues to an unacceptable level. If the roles were reversed, this book would be considered abusive. It started funny, and developed to the point where I thoroughly disliked pearl and tina at times. This double standard of abuse isn't playing with alpha culture in a humorous fashion....honestly, I liked Riley in her book. Her reactions were funny without crossing boundaries. Her acting out, standing up for herself with pepper spray, etc, was done well.

Also, the romance had an odd pacing. I struggle to remember one scene that attributed to their character development as a couple.

Pros: I have not been a fan of SE Smith's recent releases. Several I deleted without finishing. This book, some of the charm was back. I was glad to see an end to the flashbacks so predominant in her books lately.

The book is pretty interesting in how many new, imperfect characters are introduced. Tiny was a wonderful addition to the plot.

Would I recommend this book? I honestly don't know. If you liked Riley's book, this is reminiscent of its tone, though it lacks the sexual tension or chemistry between characters (this fate decides they're meant to be kind of thing, no other build up needed). The grammar is frankly bizarrely bad (how often does a writer regress in rhetoric?), and the pacing off. it was entertaining, and I finished it in a couple of hours, as it does catch the attention. I have always believed that saying a book can be excused for lazy editing, or a rougher end product of it isn't from the big publishers is ridiculous. I fervently disagree with this allowance given to these authors. If a high school paper has better polish than a published work that demands money to be read, then we have a problem. Small time publishing, or even self publishing, is not an excuse for lazy or non-existent editing. The only time I agree with giving major passes to major mistakes is amateur fan fiction posted online. Rant over.

I enjoy SE Smith's writing. She has done interesting ideas. Gracie's Touch, Krac's Firebrand, H'aven, these

are some excellent books she's released. Unfortunately, I think this book is a bit of a dud, though it is better than the Ristard one. It feels like the author is trying to rush the product, and she doesn't seem as entranced in the recent books. After this book, I am tentatively removing her from my auto buy list, hopefully temporarily. I would like to see more quality control, and an improvement to her characters before spending money on her books.

Disappointed

By Kindle Customer

I am disturbed by the trend I see going on in these books. I don't like the violence being perpetrated against the heroes for no reason. I might have found it funny when it was a one time deal, but in this book Viper is SHOT, pummeled and poisoned repeatedly by the two lead females. Why is this funny? It's not! Why would the man have any interest in a woman that treated him like that? He wouldn't!

Then, there is no transition period between hate and love for this gal. Again, unrealistic, and disappointing. I wanted more interaction and more development of the love story and the background plot.

It isn't enough that a guy recognizes his "mate". How about some actual reasons for this guy to love this girl, and vice versa. If it was enough to be insecure and abusive to get a Prince I would have believed in the book a lot more and might be living in a palace myself.

Also, if this girl was a virgin I find her initiation unrealistic. Just wanted to mention it but that didn't bother me like the abuse.

I think the author needs to slow down a little and get back into the innovative stories and cute dialogue that made me love her books so much previously.

I gave this 3 stars because I haven't given up on this author yet and will probably buy her next few books anyway. However, if I am disappointed like this much more that will change. So, please, nicer characters, sweet interaction, attention to plot, etc. I am not asking for much am I? I know this author can do it because of many of her other books. Thanks for listening.

**DELICIOUSLY CUTE, SERIOUSLY SEXY, COMPLETELY CAPTIVATING AND DELIGHTFULLY ENTERTAINING !!!**

By jlswainsboro/Judy Lewis

Title: Viper's Defiant Mate

Series: Sarafin Warriors

Designation: Book Two of Series, Standalone, NO Cliffhanger

Author: S.E. Smith

My Rating: FIVE DELIGHTFULLY ENTERTAINING STARS\*\*\*\*\*

Wow! Another winner from S.E. Smith! I'm a little late to the party for this release but I finally made it and so glad I did! After reading a few of the reviews, I admit I was a little hesitant about purchasing this book but I'm so glad I ignored the bad reviews. I realize that everyone is entitled to their opinion, as am I, but I failed to see any merit to the criticisms made by several reviewers. I am not a professional reviewer but I am an avid reader and have been for the last 60 years. I know what I like, what I love and most definitely, what I don't and I LOVED this book! I've read every single release in the Dragon Lords of Valdier, Dragonlings of Valdier, Curizan Warriors, Sarafin Warriors and Magic New Mexico Series and have loved them all. This is an exciting, imaginative, humorous, heartwarming, well crafted and well written book. The dialogue is well executed, flows beautifully and at times, laugh out loud funny. Yes, this book has a great plot but it's the magnificent characters that totally stole my heart. They are captivating, intriguing, endearing, well developed, larger than life, sexy as sin and outrageously funny. They literally explode from the pages and capture your heart. I snickered, snorted, giggled and guffawed throughout the majority of the book but I also shed a few tears as well. But then, all of Smith's books have that effect on me and this one was no exception. If an author can tug on my heartstrings and make me cry while simultaneously warming my heart with

healing love and laughter, she has most certainly succeeded in delivering an entertaining read. Isn't that what we all look for in a great read? To be truly entertained? And this book is divinely entertaining! Sure, maybe there were a few minor editing errors but so what? We all make typos and I noticed quite a few in the reviews making the criticisms. Hey, we're all human - I hope! lol... With an author who has a standard for excellence and proven track record like S.E. Smith, a few irrelevant errors should not be used to judge the overall quality of the story. Had there been tons of them, I could understand but there were only a few very minor mistakes. So my advice, ignore the bad reviews and read this book. I sincerely believe you will never regret your decision to read this one. If you enjoy Smith's extraordinary talent, exceptional skill, unique style, incredible worlds and fascinating characters, then you will surely love this book just as much as I did. What didn't I like about this book? Not a darn thing! What did I love about this book? Everything! Would I recommend this book? You bet and I am! So, buckle up my lovelies and prepare to be entertained with this enchanting story of another Sarafin Warrior finding his mate! Handsome, totally clueless, alpha-alien feline shifter warrior hero-check! Beautiful, courageous, intelligent, somewhat reclusive human heroine trying to overcome her fears as a result of a terrifying event-check! A very pregnant sister who is marrying an alien feline shifter King on another planet-check! A totally outrageous and very outspoken grandmother who loves her two granddaughters more than life itself-check! A set of rules to live by that will make you giggle-check! Danger, drama, adventure, aliens, spaceships and evil despicable human and alien villains-check! Heated attraction, fiery passion, agonizing angst, heartwarming romance and dreamy sex-you bet! That and a whole lot more! Deliciously cute, seriously sexy, completely captivating and delightfully entertaining!!!
