If you intend to download the *White Line Fever: The Autobiography By Lemmy Kilmister*, it is quite easy after that, since currently we extend the link to buy and also make deals to download [White Line Fever: The Autobiography By Lemmy Kilmister](#) So simple!

WHITE LINE FEVER: THE AUTOBIOGRAPHY BY LEMMY KILMISTER PDF

One of music's most notorious frontmen leads a headbanging, voyeuristic odyssey into sex, drugs, and rock 'n' roll that rivals Motley Crue's *The Dirt* and Aerosmith's *Walk This Way*. He made Keith Richards look like a choirboy and Mick Jagger look like a nun. And as the head of the legendary band Motorhead, he ploughed his way through so many drugs, so many women, and so much alcohol, that he gave a whole new meaning to the term Debauchery. And he changed the face of music, conquering the rock world with such songs as *Ace of Spades*, *Bomber*, and *Overkill* and inventing a whole new form of music--speed metal. At the age of 57, Lemmy Kilmister remains a rock icon, both for his monumental talent and his hedonistic lifestyle. In *White Line Fever*, he recounts his incredible, pleasure-filled, and death-defying journey through music history. Born on Christmas Eve, 1945, in Wales, to a vicar and a librarian, Ian Fraser Kilmister learned early, he as he forthrightly puts it, what an incredible pussy magnet guitars were. A teenager at the birth of rock 'n' roll, Lemmy idolized Elvis and Buddy Holly and soon joined a band of his own. He would eventually head to London, where he became a roadie for Jimi Hendrix, played in *Opal Butterfly*, and joined space rockers Hawkwind's lineup in 1971. Four years later, speedfreak Lemmy was fired from the band for doing the wrong drugs. Vowing to form the dirtiest rock 'n' roll band in the world, he formed Motorhead, arguably the heaviest and loudest heavy metal band to ever take the stage. During their twenty-seven-year history, Motorhead would go on to release twenty-one albums, including the #1 record *No Sleep 'Til Hammersmith* and would earn a Grammys nomination. Lemmy would also cheat death on more than one occasion, most notoriously in 1980, when his doctor told him, I cannot give you a blood transfusion because normal blood will kill you...and your blood would kill another human being, because you're so toxic. But through more than two decades of notorious excess, Lemmy has lived to tell the warts-and-all tale of a life lived over the edge. *White Line Fever*, a tour of overindulgence, metal, and the search for musical integrity, offers a sometimes hilarious, often outrageous, and always unbridled ride with the leader of the loudest rock band in the world."

For Motorhead lovers

By djlmom62

If you're a Lemmy fan this is the book for you. I bought this as a gift for my husband after he saw an interview with Lemmy and wanted to know more. He read this in a couple of days -- the only down side is that now I've got to listen to Motorhead music constantly and I'm not a fan!

I came away knowing that he was very intelligent, not just street smart

By lisa green

OMG!!

Lemmy suprised me with how well spoken and written this book was. I guess I expected random touring stories and what not but not so. I felt I got to know the man behind MotorHead.

I came away knowing that he was very intelligent, not just street smart. Made me love him all the more.

One of the better rock star autobiographies I've read lately

By Mark

One of the better rock star autobiographies I've read lately. Lemmy has a sense of humor and this book flows nicely.
